

# Campus Safety and Security Report

The National Personal Training Institute (hereafter jointly referred to as NPTI) provides campus safety and security information for its school via this report. This information is provided in accordance with the Clery Act, the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

This report includes statistics for the previous three years if applicable concerning reported crimes that occurred on-campus and on public property within or immediately adjacent to and accessible from the campuses. The report also includes institutional policies concerning campus security and safety. The data was collected from the Lisle, police department and internal school records by the school director. NPTI does not employ security personnel but all on-site staff may be considered as campus security authorities.

The NPTI Crime Report is distributed to students, faculty and staff via [www.nationalpti.edu](http://www.nationalpti.edu). A copy of the report may also be obtained by contacting the school director.

## **Annual Fire Safety Report and Missing Student Policy**

NPTI is a nonresidential institution of higher education. Therefore, NPTI is not required to maintain a fire safety report or to have a missing student policy. Fire inspections are conducted as required by the State Fire Marshal and posted in the facility. Evacuation routes are mapped and posted on each floor of the facility.

## **Crime Prevention and Safety Initiatives**

NPTI students and staff must assume responsibility for their own personal safety and the security of their personal property. The following precautions help provide guidance:

- Avoid walking alone at night
- Carry only small amounts of cash
- Never leave valuables unattended
- Check the back seats of your car before you get in
- Never take personal safety and security for granted
- Close windows and lock doors when leaving your car
- Keep a record of serial numbers for laptops, electronic devices, etc.
- Report all suspicious activity to an NPTI staff member immediately
- Do not leave valuables in your car, especially if they can be easily noticed

## **Crime Alert Notices**

A crime alert may be issued by the school director to assist in gathering information, to inform the campus community of criminal or suspicious activity or crime trends and to facilitate crime prevention. They are distributed to the campus community via group email.

## **Timely Warnings**

When the school director or his/her designee in conjunction with the Lisle, IL police determine that a crime represents a serious or continuing threat to students and employees, a crime alert will be sent to students and staff. The Clery Act requires NPTI to issue timely warnings for serious crimes such as murder, robbery, aggravated assault, burglary, motor vehicle theft, rape and certain hate crimes if the crime occurred on campus, on property owned or controlled by the school or on public property that is immediately adjacent to campus.

The school director or his/her designate will determine on a case by case basis whether a timely warning will be issued via a crime alert. Timely warnings will generally contain the following information:

- Suspect(s)
- Date and time of issue
- Location of the incident
- Specific safety response
- Date and time of the incident
- Type of criminal activity reported
- A brief description of the offense
- Police and emergency telephone numbers

### **Emergency Notification**

An emergency notification is different than a timely warning or crime alert. Emergency notifications will be issued immediately upon confirmation that any significant emergency or dangerous situation exists that involves the immediate threat to the health or safety of students or employees on campus. An emergency notification will be issued via email. Emergency notifications are typically more immediate, shorter and contain less information than timely warnings due to the fast evolving nature of emergency situations. Updates or follow-ups to emergency notifications will be given as necessary when information becomes available. An emergency notification may also serve as a timely warning depending on the circumstances and the information available.

NPTI will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or otherwise mitigate the emergency.

### **Emergency Response and Evacuation Procedures**

The following procedures are utilized when the school director or other designated campus security authority is notified about a potentially serious situation that affects either of the two NPTI campuses, its students or its faculty and staff.

- Perceived fire, medical or criminal activity
  - Call emergency response at 911
- Minor medical situations
  - Handle in the manner deemed most appropriate by the first responder. First Aid kits are located in the Directors office if required
- Other non-specified emergencies not automatically requiring a call to 911 (electrical issues, gas leaks etc.)
  - The security authority will contact the appropriate agency and the school director

All incidents should be reported to the school director as soon as possible. Employees or students who are injured at NPTI are required to report the injury to the school director within 24 hours of the occurrence. The school director or his/her designee will send an "all Clear" message when the situation is over if applicable. Information will not be shared with the campus community when the local police department, in conjunction with the school director or designee determines that doing so would compromise the efforts of assisting those in peril.

Additional means of providing on-going information concerning a potential life safety situation and its resolution include:

- Local Media
- Emails to students, faculty and staff at the involved campuses
- Communication with the local police department

The veracity of student email addresses is confirmed and tested during a student's enrollment through the review of initial student enrollment paperwork and via the on-going distribution of email job postings sent to all students.

### **Evacuation Plan**

Evacuation routes and directional equipment are provided in accordance with any existing local fire and city ordinances and all personnel are instructed to become familiar with them at new students or staff orientations. In the case of an evacuation:

- Exit through the door nearest you
- Meet on the parking lot
- Staff in attendance will determine if all have safely evacuated the building.
- Report the situation to the school or on-site director who will then coordinate with emergency response units
